

LANDSCAPING REQUIREMENTS & DEPOSIT PROCEDURE

Landscaping

Landscaping of at least the front yard is to be completed within one year of occupying the home. This is to include sod (seed is not acceptable) to the sidewalk or curb and one (1) tree planted in the front yard. **Deciduous trees must have a minimum 2" calliper trunk (trunk width); measured 6" above ground and coniferous tree must be at least 5' in height.** When the sub-grade is prepared next to the sidewalk or curb, all efforts shall be made to avoid water ponding next to the concrete. **Sizes specified are sizes required at time of planting. If landscaping fails and more than one (1) re-inspection is required, there will be a penalty charge of \$150.00 to be deducted from the deposit.**

Alternate Landscaping (Low Maintenance)

Proposals for alternate landscaping of the front yard (low maintenance, low water use) will be considered on an individual basis if it can be demonstrated that the alternate plan meets the objective of these guidelines, to achieve greenery in all front yards within the neighbourhood. The use of hard surface landscaping rather than sod will require the planting of additional trees and extensive shrubbery, to visually soften the hard surface and achieve greenery. Submission of detailed plans for approval, prior to landscaping construction will be required.

Landscaping Deposit

A \$1,000.00 landscaping deposit, per lot, must be paid by the Builder to the Developer at the time of payout to ensure landscaping compliance.
